

You can now renew and manage your Wyoming Department of Agriculture Technical Services licenses online. The new online system does accept credit cards for online renewals. We will be updating our license portal over time but for now you can manage the following options:

1. Update contact/business information including mailing address.
  1. All changes are pending approval by the WDA before they officially take effect.
  
2. Renew your current licenses and review current license categories.
  1. At this time you are not able to edit current license information.
  2. To cancel a product please just do not renew it.
  3. To drop a category/license please just do not renew it.
  4. If there is a cost associated with your license you must renew the category/license that has the price attached in order to renew your license.
  5. You must meet certain requirements to renew your license. If those requirements are not met yet the system will not allow you to renew your licenses at this time. For questions on those requirements please contact us at 307-777-7324

This system is for all technical services licenses including:

1. Establishment Licenses (Open Renewal 12/31 thru 6/30)
